PROPOSALS FOR COAL COAL SHOVELS AND HEATING STOVES-National Military Home, Grant Co., Indiana. Treasurer's office February 14, 1902. Sealed proposals will be received at this office, until 10 o'clock a. m., February 21, 1902, for furnishing two hundred (250) (2.000 pounds per ton) Coal, bituminous, bect Hocking lump or its equal, delivered F. Home grounds, also for 18 Coal Shovels and 18 Heating Stoves. Specifications and blank proposals will be furnished upon application to this office. The Home reserves the right to reject any or all proposals, or to waive any informall ties therein. Envelopes containing proposals should be indorsed: "Proposals for Coal, etc., and addressed to the undersigned. Bids aggregating over \$500.00 must be accompanied by certified check, payable to the undersigned Treasurer for at least five per cent. of smount thereof, which check will be forfeited to the National Home for D. V. S. in case the successful bidder refuses or falls to enter into contract as required; otherwise to be returned to the bidder. JNO. Q. ADAMS, Treasurer. JUS-TIN H. CHAPMAN, Governor.

NOTICE TO BIDDERS.

Sealed proposals will be received by the board of trustees for the Central Indiana Hospital for Insane until the 5th day of March, 1902, at 3 o'clock p. m., for the electric light fixtures for the hospital for sick insane. Specifications and schedules for same are on file at the office of Adolf Scherrer, architect, indianapolls. Ind. The board reserves the right to reject any and all proposals.

By Order of the Board of Trustees.

## AN UNLUCKY THIRTEEN.

## That Number of Young Men Convicted

of Murdering Jack Osborne. BRISTOL, Tenn., Feb. 16.-Thirteen young men were convicted of the murder of Jack Osborne, in Russell county, Virginia, last Christmas, and sentenced to the penitentiary. King, John. Wilson and Thomas Rhea, all brothers, were sentenced to eighteen years each; Charles and Ban Ball. brothers, eighteen years each; Walter and Joseph Hess, brothers, sixteen years each; James, Green and Thomas Ball, brothers, five years each; James Puckett, five years; John Henry Hess, a brother of Walter and

Joseph Hess, one year.

## A LIGHT TONNAGE MOVING

LOADED CAR MOVEMENT LIGHTER THAN FOR MANY MONTHS.

Changes on the Southern Pacific Wil Not Affect E. O. McCormick- General and Personal Notes.

In the week ended Feb. 15 there were received and forwarded at Indianapolis a total of 23,951 cars, 18,087 being loaded, fifty-nine more than were handled in the first week of February, and it was the lightest week's business in many months. In the corresponding week of 1901 20,944, and in 1900 21,398 loaded cars were handled. The trouble seems to lie wholly in lack of power. The older engines are in bad condition, having been run too long without repairs, and only the newly-purchased engines are really fit for service. These are not so troublesome as the power question.

English Hotel block. being run steadily. The car shortage is E. T. SILVIUS & CO., 108 N. Pennsylvania st. | Side tracks at division points are full of loaded cars awaiting power to move the freights. Unusually severe weather for Indiana and Illinois is unfavorably affecting freight traffic and also passenger business, and there is a shortage of power in this line of service, and passenger business is so satisfactory at present that the trains must be kept moving, although through (Carriages, Traps, Buck-25 Circle. Tel. 1097. trains are running a half to three hours late, and local pasenger trains are experiencing trouble in making time. The train record shows that the Big Four lines proper handled 2,866 fewer loaded cars at Indianapolis last week than in the corre-

sponding week last year, and all east-andwest lines show decreases, while the northand-south lines, which is unusual, are handling more business than last year. The Pensylvania lines last week show an increase over last year, but the increase was wholly with its north-and-south lines. its relations with the Lake Shore, espe- west, where connection is made with the returned to Manila. ic continues favorable, and with more seasonable weather the rush of business will be as heavy as during recent months, say freight men who understand the situation The following table shows the number of cars handled at this point for the week ended Feb. 15, and for the corresponding

### The Question Has Two Sides.

"Concerning the demand of railway employes, more especially in the train service," said a general manager, "there are two sides to the question of an advance in wages in the higher class service. It should be borne in mind that but 56 per cent. of the railways are to-day paying any dividends to stockholders, and the latter are tiring of waiting for dividends. In dealing with raises in the wages of railroad men the public and the men seem to forget that in the last ten years the earning capacity of the trainmen has been increased at least 50 per cent. by the expenditure by the railroads of vast sums of money and that the responsibility of the trainmen and conductors has been reduced to a minimum. Most of the pay is per mile, and on a double-tracked system the ability to perform the same amount of service in less time is increased at least 50 per cent., the average mileage of freights per hour having increased from about ten to seventeen or eighteen miles. Sight is also lost of the fact that while gross earnings have increased enormously the surpluses have been going back into the properties in such a way as to increase the earning capacity of the men and that the stockholders are rarely getting more than they dld formerly. When a commercial business increases wages it comes out of the public, but when a railroad increases it is a dead loss. It is also a remarkable fact that on roads where pension systems have been created the men do not seem to appreciate the favor.

## Belt Road Traffic.

In the week ended Feb. 15 there were of transfers per week for the month past. Belt road engines handled at the stockyards 1,193 carloads of live stock, against 1.047 in the preceding week, and for private switches on its line 1.196 cars, against 1.158 n the previous week.

## Personal, Local and General Notes.

merger of the Mobile & Ohio with the Southern Railway. The Railroad Men's Club at Kansas City will be reorganized and will extend to all branches of the service. It is now largely

confined to freight men. W. S. Kurrle, of the legal firm of Foley, retired to accept the position as assistant able nether garments and a short coat of general solicitor of the Monon.

W. R. Woodford has selected H. R. Mc-Mahon, for several years with him on the Cleveland, Loraine & Wheeling, as his right hand man in his new position on | the Baltimore & Ohio. Elmer Pilling, a well-known Fanhandle conductor, is reported in serious condition

at Dennison, O., suffering from locomotor ataxia, which has troubled him for some time, but less seriously than now. Cornelius Tracy, for twenty years an en- | Constance, who is the champion swimmer gineer on the Nickel-plate, died last week of England, and, as a sea nymph, appears at the Hospital Bellevue of stomach trouble. He commenced service on the roads

as fireman of a construction train. William Paul, of the Wabash shops at Fort Wayne, passed through the city yesterday en route to Galveston, where next week he will assume the duties of master mechanic of the Galveston & Houston. George Gregg, for many years foreman of the Chicago & Alton shops at Bloomington, Ill., will to-day succeed V. B. Lang as master mechanic, Mr. Lang ac-

cepting a similar position on the Queen & Engineers and firemen on the Illinois Central have asked for an increase in wages and were in conference last week with officials of the road. The men are now paid by the 100-mile trip, and ask for

25 cents increase. George T. Ross, who comes to St. Louis from the Great Northern as superintendent of the Missouri Pacific, has been in the railroad service since 1887, and has

occupied every position in railroad service from telegraph operator up. The railroad branch of the Young Men's Christian Association, at Philadelphia will to-night give a reception to General Joseph Wheeler at the association rooms.

Charles E. Pugh, second vice president of the Pennsylvania, will preside. Last week the Cincinnati, Hamilton & Dayton received two of the five new tenwheel freight locomotives, and this week will receive three more on its first order. In September the recently placed order for

eight additional heavy locomotives will be Contracts have been awarded for eliminating curves, reducing grades, widening roadbed and double-tracking the Western Maryland road. The road is being put into

condition to handle the traffic of a great !

trunk line. The belief prevails that the money is furnished by the Gould people. President Burt, of the Union Pacific, says the company will erect a building at Cheyene for its employes, to cost in the neighborhood of \$100,000. The building will be with a clubroom, reading room and gym-

The Pullman Company will at once build new cars to run on the Big Four between St. Louis and Boston on trains No. 16 and The cars will have twelve sections, drawing room, smoking room, electric light and everything modern for the best Pullman service.

Robert Blickensderfer, who manages the affairs of the Wabash at St. Louis, and who was so badly injured in the wreck on the Erie road at Cleveland last week, is the father of Dr. J. F. Blickensderfer, medical examiner of the Pennsylvania lines at Cadillac, Mich. O. P. McCarty, general passenger agent

was at St. Louis on Saturday and inspected the company's new and elegant passenger offices in that city. Mr. McCarty H. H. Kingston, general traffic manager f the Lehigh Valley; T. N. Jarvis, formerly with the Traders' Despatch at Indian-

road, and E. J. Henry, Western freight agent, were in the city yesterday, and met Thomas Smiley, who represents the line in The Southern Pacific will break its reations with the Armour fruit car line as well as the Santa Fe, which will be quite blow to the Armours, who have at least \$15,000,000 tied up in refrigerator cars. The

building several thousand refrigerator cars President Cassatt, of the Pennsylvania, his son Robert Cassatt, who is now in sistant to President Cassatt, and a number of other men prominent in railroad and coal circles, are leaders in the Keylast week at Greensburg, Pa.

Eastern passenger agent of the Southern ger traffic manager, onthe Pacific coast, and may be a similar division of the freight

cially in its west-bound business. The out- Wheeling & Lake Erie, owned by the Walook for a heavy spring and summer traf- bash. The link is an expensive one to steamer Zafiro, which was attached to his John Sebastion, general passenger agent of the Chicago, Rock Island & Pacific, gives notice of the opening of the line to El Paso on March 1, when a daily tourist car service to San Francisco from Chicago will be inaugurated. He claims that it

is 202 miles the shortest line between Chi-

cago and San Francisco, and its schedule

is five hours quicker to southern California

points. The numerous friends of E. O. McCormick, passenger traffic manager of the Southern Pacific, will be pleased to know that the changes in ownership of that property do not affect him, but rather strength en his position. On the retirement of Edwin Hawley, on March 1, as assistant general traffic manager, Mr. McCormick will have jurisdiction in the East as well as in

the West. Officials of the Lehigh Valley road claim that the line is the best protected against accident by the block signal system of any road in the world. Every foot of the main line from New York to Buffalo is provided with automatic signal protection. On 467 miles of track it has in operation, all told, 1,552 automatic signals. This number of signals is divided into 745 blocks, the average length of each block being 1.16 miles. The signal used by the Lehigh Valley is an American invention and is gaining favor

with foreign roads. The Black Diamond Express on the Lehigh Valley makes the run from New York to Buffalo daily, except Sunday, at an average speed of 49.8 miles per hour, excluding stops. The following details are taken from the official train sheets: The run from Jersey City to Newark, 7.7 miles. is made at the rate of 16 miles per hour; Newark to South Plainfield, 17.8 miles, at 42 miles per hour; South Plainfield to Easton, 50.5 miles, at 51 miles per hour Easton to South Bethlehem, 11.8 miles, at 34 miles per hour; South Bethlehem to Allentown, 4.7 miles, at 39 miles per hour; Allentown to Mauch Chunk, 28.9 miles, at 42 miles per hour; Mauch Chunk to Kilkesbarre, 53.8 miles, at 36 miles per hour; Wilkesbarre to Tunkhannock, 31 miles, at 49 miles per hour; Tunkhannock to Sayre, 64 miles, at 52 miles per hour; Sayre to Geneva, 73.5 miles, at 54 miles per hour; Geneva to Rochester Junction, 35 miles, at 51 miles per hour; Rochester Junction to Buffalo, 68.1 miles, at 54 miles per hour. The New York Evening Post, in commenting on the promotion of W. H. Marshall to be general superintendent of the Lake Shore and the Lake Erie & Western, says: "Mr. Marshall, because of his service on a number of roads, but also by his force of character, his wide knowledge of railroad work, and the ability he has shown in the administration of various offices, is widely known among railroad men, and his new appointment will generally be regarded as a most excellent one. His promotions of late years have been frequent and on proved merit. Mr. Marshall is not yet forty years of age, and heretofore has been connected altogether with the mechanical department. After serving in Western roads he became editor of

a railway journal here, and then in May, 1897, became assistant superintendent of motive power on the Chicago & Northwestern Railway. In the summer of 1899 he became superintendent of motive power on the Lake Shore, and put in force the new ideas in that department which have resulted in giving that road new efficiency in its motive power, and contributed, in an essential manner, to its present excel-

> Discourtesy Shown to Dewey When They Stole Away and Spread the News of Manila's Surrender.

NEW YORK, Feb. 16 .- In the issue of the Army and Navy Journal there is published a "piece of unwritten history conof the Baltimore & Ohio Southwestern, cerning German ill-feeling toward the United States during the war with Spain,' told by "a well-known officer who was on is proud of these offices, they being among | the scene at the time." The story is to the effect that immediately after the surrender of Manila Governor Augustin, who commanded the Spanish forces, boarded the apolis, now Eastern freight agent of the German man-of-war Kaiserin Augusta and was taken to Hong-Kong. From there, it is said, he cabled to Madrid informing the Spanish officials of what had happened. This is the story: "Just previous to the surrender of Manila Admiral Dewey gave strict orders that no vessels should leave the harbor. Just after the surrender of Santa Fe and Southern Pacific are both the city on Aug. 13, 1898, and while the United States warships were anchored in front of the city, Governor Augustin was taken on board the German man-of-war Europe, Robert Pitcairn, of Pittsburg, as- Kaiserin Augusta, which, contrary to orders, steamed out of the harbor rapidly, and, being a very fast vessel, was almost stone Coal and Coke Company, organized | hull down before she was actually missed. She went direct to Hong-Kong. The Kaiserin Augusta, The Lake Erie & Western is profiting by from Pittsburg to a point fifteen miles after sending the cipher dispatches, then "Meanwhile Dewey had dispatched the

fleet and a slow boat, with a cable telling of the surrender of Manila. She arrived at Hong-Kong to spread the news to the world fully twenty-four hours after the German warship. To say that American officers conversant with the facts of the breach of international courtesy on the part of the Germans were mad is putting it mildly. They were furious, and had the intention of the German vessel to depart from the harbor in defiance of orders been anticipated she would have had a tough time to get out. As said before, she was almost hull down before she was discovered sneaking away, our officers and men being busy with matters concerning the surrender."

## SUFFRAGE FOR WOMEN.

#### Alice Stone Blackwell Responds to Hon. Abram S. Hewitt.

To the Editor of the Indianapolis Journal: Hon. Abram S. Hewitt, former mayor of New York, has just published a list of his reasons for thinking that women ought not to be allowed to vote. He says that the elevating moral influence of women "will be impaired, if not destroyed, by contact with men in political movements, assemblies and elections." This is hard on the many admirable women in New York who took part in the recent successful campaign against Tammany. For weeks they were brought into as close contact with men in that political movement and in its assemblies as they could have been during the few moments of casting a ballot in the actual election; and their elevating moral

influence has not been at all impaired. Mr. Hewitt says the duties of public office "could not be performed by women without violating the proprieties and safeguards of female purity and delicacy." This is hard on the women most active in opposing woman suffrage. Mrs. J. Elliot Cabot, the president of the "Massachusetts Association Opposed to the Further Extension of Suffrage to Women," who has just died, was for years an overseer of the poor, and member of the School Board in Brookline, Mass. In New York so many of the womer most prominent in opposing suffrage are officeholders that it has been said no "anti" was ever yet known to refuse an office. In the equal suffrage States the offices which women hold are mostly educational and charitable. But since the example of Queen Victoria it is idle to say that even the highest office may not be held by a woman without the impairment of "female purity

and delicacy. Mr. Hewitt says women ought not to vote because they cannot fight. If no persons were allowed to vote except those who are I million to do military and police duty, it would be consistent to rule out with white noncomparants; but that is not the case. Massachusetts, California. Wyoming and a growing number of other States have an educational qualification for suffrage. In each of these States thousands of able-bodied men are excluded from suffrage because they cannot read and write; while everywhere the old, the infirm, the halt, the lame and the blind are freely admitted to the ballot-box. Not one of the forty-five States in the Union recognizes any connection between the ballot and the power to perform military and police duty. Either the right to vote should depend on the power to fight or it should not. If it should not, women can- et al.; account. Finding and judgment for not in fairness be excluded for that rea- plaintiff against defendant, Bern R. Batty, son. If it should, Mr. Hewitt ought to be for \$327.36 and costs.

excluded himself. For all men over fortyfive are exempt from military service, and he is long past that age. Again, it must be remembered that if do render equivalent service in another soldiers. Some woman risks her life for to pay petitioner \$165.24, as preferred. her country every time a soldier is born need to bear arms." The men of | Room 1 the enfranchised States regard this particular objection with downright scorn. There is no fact about these States to which ob- Room 2. servers bear more emphatic testimony than to the independent voting of the women. Mr. Hewitt prophesies that "the influence of the baser elements of society will be enlarged and that of the conservative elements to be impaired." Women are more conservative than men, and the vicious and criminal class is much smaller among women than among men. This is not a matter of speculation, but of statistics. How can it enlarge the influence of the baser elements to give the ballot to the sex that constitute more than two-thirds of the church members and less than one-tenth of the criminals? The baser elements themselves do not think it would strenthen their power. Every vicious interest in the comunity would rather contend with woman's indirect influence than try to cope with woman's vote. and women," the disappearance of "the

## SATURDAY A GOOD DAY

ARE STEADY AND FIRM.

Dry Goods Houses Have a Good Spring

and Reorder Business-Grain Arrivals More Numerous.

Taken in the aggregate, trade in the week ended on Feb. 15, in most lines, was better than had been anticipated in view of weather conditions. The commission houses have managed to dispose of a good many goods, most of the fruits and vegetables being shipped in warmed cars. The wholesale grocers had a fairly busy week, the temperature having less effect on their lines of goods. Shipments of sugar, coffee, syrups, molasses, canned goods and evaporated fruits were large for this season of the year and prices ruled steady through the entire week The dry goods houses report their business as W. J. Brooks, a New York commission | being fully up to expectations. Retail merchants are stocking up liberally for spring and summer trade, and are replenishing winter stocks as fast as necessary. In prices there was not a change during the entire week. There seems to be a good deal of activity in the wool market, and prices are very firm on all grades at the recently revised prices. The produce market ontlinues in a strong position on light receipts and an active demand. Poultry and butter are fast movers, and eggs are in better request than a week ago, regardless of the high range of prices. As for some time past, provisions are fast movers in a domestic way, and prices are steady and firm, the high prices for fresh meats being favorable for increased sales of ham, bacon and all smoked meats. Wholesale merchants and commission men all anticipate a good business when real spring weather sets in which will be welcomed to an extent not ordi-

#### narily realized in Indiana. Indianapolis Grain Market.

During the last day or two there has been an ncrease in receipts of grains, while prices have ruled steady and firm. Dealers are showing more interest than in the early part of the week, and all arrivals are taken readily at the following range of prices on the track, as furnished by the secretary of the Board of Trade: Wheat steady; No. 2 red, \$7c track; No. red. 86c on milling freight; No. 2 red, 83@85 track; 87c track; wagon wheat, 87c. Corn-No. 1 white, 64c; No. 2 white, 64c; No. 3 white, 64c; No. 4 white, 60@62c; No. 2 white mixed, 621/2c; No. 3 white mixed, 621/2c; No. 4 white mixed, 581/2601/2c; No. 2 yellow, 621/4c; No. yellow, 62%c; No. 4 yellow, 58% 460%c; No. 2 mixed, 621/2c; No. 3 mixed, 621/2c; No. 4 mixed, 65 0 60%c; ear corn, 64c. Inspections-Corn: No. 3 white, 16 cars; No. 4 white, 1; No. 3 white mixed, 2; No. 4 white mixed, 2; No. 2 mixed, 3; No. 3 mixed, 1; total 25 cars. Oats: No. 2 mixed, 6 cars. Hay: No. 1 timothy, 1 car; No. 2, 2; clover, 1; total, 4 WAGON MARKET.

During the last three days there has been a marked increase in offerings on the wagon market, and in the early part of Saturday the highest quotations were made on choice hay and corn in good condition. But in the afternoon some shading of prices was done rather than to hold articles over for Monday. Still, taken as a whole, Saturday was a good day on the market. Prices at which stuff sold, as reported by the wagon weighmaster, ruled as follows: Corn-71@74c per bu. Oats-48@50c per bu. Hay-Timothy, choice, \$12@13; mixed, \$10@11

#### Sheaf Oats-\$10@12 per ton. Straw-\$607 per ton, according to quality Poultry and Other Produce.
